Education

Southern New Hampshire University | Manchester, NH

May 2026

B.S. in Computer Science with Concentration in Software Engineering | GPA 3.6

- **Relevant Coursework:** Full-Stack Development, Mobile Development, Client/Server Development, Data Structures and Algorithms, Secure Coding.
- **Honors:** Dean's List

Skills

Languages: TypeScript, JavaScript, Java, Python, C++, SQL, HTML, CSS

Frontend: React, Tailwind CSS, shadcn/ui, Vite, Angular

Backend/Database: Node.js, Express.js, REST APIs, JWT, bcrypt, PostgreSQL, Prisma, SQLite, MongoDB

Experience

Lead Full-Stack Developer (Freelance) – RentOps 360 | Bradenton, FL

May 2026 - Present

- Sole engineer responsible for the architecture, development, deployment, and ongoing maintenance of RentOps 360, a production SaaS platform for a trailer rental business.
- Partner directly with the client to define product requirements, prioritize features, estimate development effort, and manage project scope across multiple development phases.
- Designed and implemented a full-stack application using React, TypeScript, Node.js, Express, PostgreSQL, and Prisma, including role-based authentication, customer management, booking workflows, maintenance tracking, inventory management, and REST APIs.
- Designed a multi-tenant data model that isolates each business's customers, bookings, maintenance records, and inventory.
- Deploy and maintain the production application user Vercel, Render, Neon PostgreSQL, and Cloudinary while delivering new features and resolving production issues.

Projects

Android Inventory Management App

Java, Android Studio, SQLite, Node.js, Express, Volley, JWT, and bcrypt

- Built an Android inventory app with user accounts, inventory CRUD operations, low-inventory SMS alerts, and improved UI/UX.
- Added search, sort, and filter functionality to improve usability and demonstrate data structure and algorithm concepts.
- Integrated a Node.js + Express REST API with bcrypt password hashing and JWT authentication. Connected the Android client using Volley and tested routes with Postman.
